

Blood Sciences Supplementary Request Form for Addon Tests

Any add-on test that is needed immediately to impact patient management should be requested as urgent below. The impact that the result will have should be clearly documented on the form. Without this detail the specimen will be processed when convenient by the laboratory.

Please note that not all tests can be processed urgently.

Additional tests can rarely be performed on samples more than 24 hours old and many tests need to be completed on much fresher samples.

Tests can be added to ICE up until receipt into the laboratory systems.

Please **do not** request additional tests as a supplementary request in ICE

RSCH:

Within routine hours: Complete this form and send to laboratory.

Do not bleep the on-call BMS for supplementary investigations.

Complete this form and send to Pathology reception (air tube number 4152).

PRH:

Within routine hours: complete this form and send to laboratory.

Outside routine hours: please complete and send this form to Pathology but also bleep the on-call Biochemistry/Haematology BMS (6102/6103).

All details to be completed.

Surname/Forename:..... **DoB:**.....

Patient NHS/Hosp No:..... **Ward/Hospital:**.....

Original date of sample: **Sample number (if known):**

Today's date:..... **Requested by:**..... (sign)

Additional Tests Required:

Required Urgently:

Reasoning for requesting these urgently:
